

SEQUENCE CHART

TEACHING NOTES

You can use the Sequence Chart transparency to help students organize events for writing assignments, especially when the assignment calls for narration. You can also use the chart to allow students to practice indentifying the sequence of events in short stories.

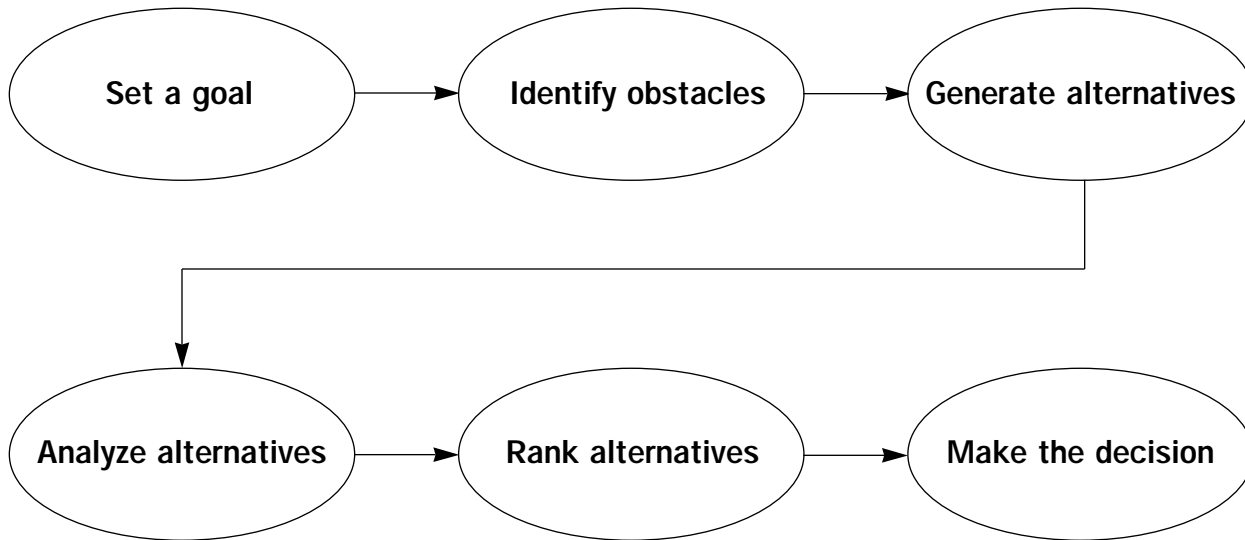

the overhead projector. Ask students to suggest possible topics involving a process or a series of events. After the class agrees on a topic, have students identify the steps in the process or the order of events as you write their ideas on the transparency.

Presentation

To show students how to use the Sequence Chart for writing assignments, place the transparency on
