Activity

Think and Discuss

1. Which graph best displays the Student Council budget? Why?

_____________________________________________________________________

_____________________________________________________________________

2. Would a line graph be an appropriate display of the Student Council budget data? Explain.

_____________________________________________________________________

_____________________________________________________________________

Try This

1. The table shows the number of points scored by members of a girl’s basketball team in one season. Use a spreadsheet to create a bar graph and a circle graph of the data.

<table>
<thead>
<tr>
<th>Player</th>
<th>Ana</th>
<th>Angel</th>
<th>Mary</th>
<th>Nia</th>
<th>Tina</th>
<th>Zoe</th>
</tr>
</thead>
<tbody>
<tr>
<td>Points</td>
<td>201</td>
<td>145</td>
<td>89</td>
<td>40</td>
<td>21</td>
<td>8</td>
</tr>
</tbody>
</table>

2. Which type of graph is a better display of the data? Why?
