

T-Shirts Through Time

Imagine walking into a T-Shirt shop in the time and place you are now studying in world history. What would you be likely to see for sale? Your job is to answer that question by designing a T-Shirt for sale in that shop.

Create a Concept

In creating a concept or idea for your T-Shirt design, think about the following:

- What symbols, pictures, or images might people living in that time and place have used in a T-Shirt design?
- What events, activities, or products might people living then have displayed on a T-Shirt?
- What did people living then find important? What values might they have expressed in a T-Shirt design?

Develop a Design

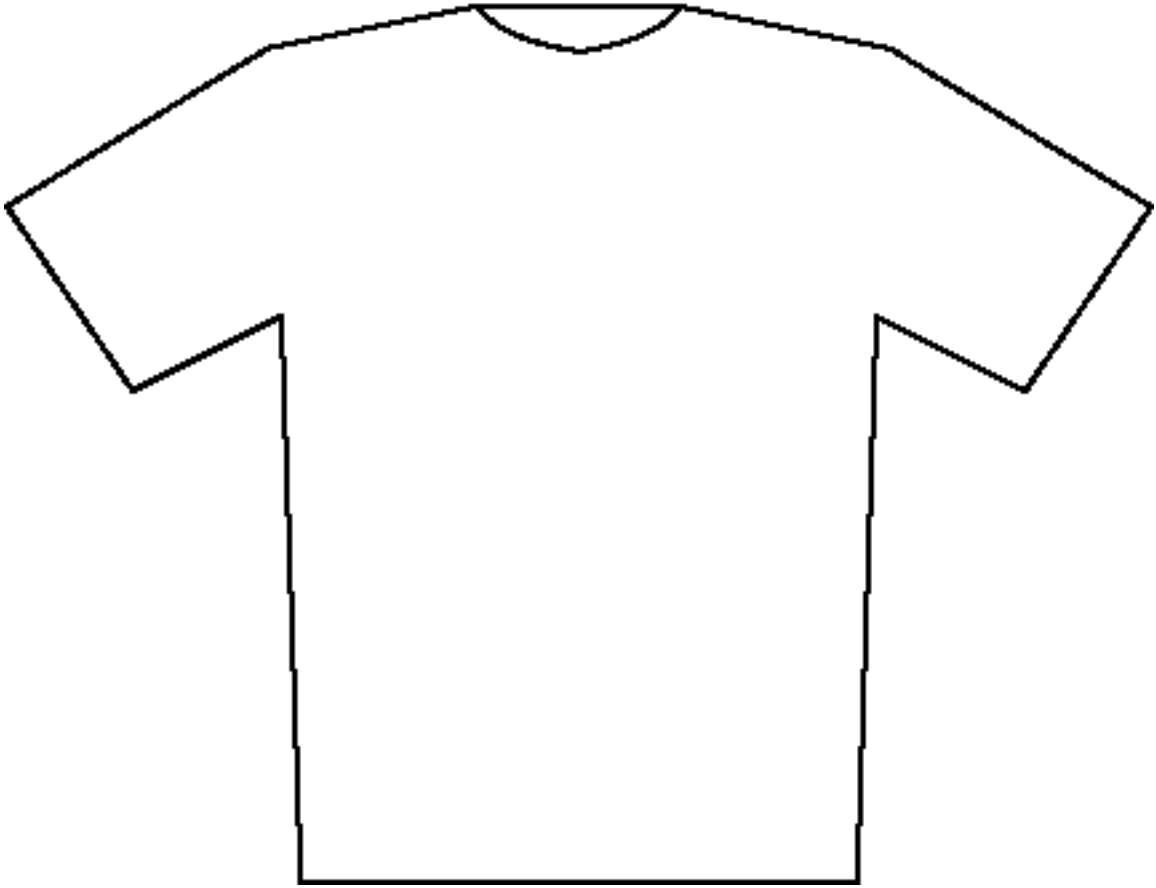

Work out a design for your T-Shirt on scratch paper. Your design may include artwork, text, graphics, symbols, and eye-catching colors. Take care, however, to make sure that whatever appears in your design is accurate and appropriate for the time and place you are studying.

Complete Your Shirt

Transfer your finished design to the T-Shirt Sheet. You may illustrate both sides of your shirt.

When you are finished, cut out your T-Shirt for display. Be sure to include your name.

The T-Shirt
